INDEX TO VOLUME 23, 1969

Adaptation, carnassial dentition, carnivores, 96
reproductive biology and behavior, *Leptodactylus* species groups, 421
structure and function, vertebrate nose, 131
to cave existence, evolution, *Pseudosinella violenta*, 602
Adaptive morphology, Fringillidae, 406
Adaptive radiation, Bruchidae, 1
cichlid fishes, Africa, 359
Darwin's finches, 252
Gyrinophilus and *Pseudotriton* salamanders, 50
mesonychid mammals, 703
Perissodactyla, 308
Adaptive significance, of chromosome patterns, *Perognathus goldmani*, 645
of color-phase, gibbons, 627
Adaptive value, sexual dimorphism, 36
Africa, patterns of evolution, cichlid fishes, 359
Anemophily, geographical distribution, evolution, angiosperms, 28
Angiosperms, evolution, wind pollination, 28
Aphytis (Hymenoptera), reproductive isolation between hybrids and parental species, 525
Aquilegia, phylogeny, biochemical systematics, 153
Batesian mimicry, selective advantage, 339
Bee-mediated pollen and gene dispersal, dependence upon plant density, 560
Behavior, courtship, *Drosophila melanogaster*, 548
emigration, *Phaenicia sericata*, 65
feeding, Fringillidae, 406
foraging, bees, 560
reproductive, *Leptodactylus* species groups, 421
Behavioral mechanism, selection for phenotypes, mating success, fitness, *Phryganidia californica*, 55
Bergmann's rule, thermoregulation, *Neotoma*, 329
Biogeography, California islands, book review, 724
small islands, 171
Bruchidae, predation on Leguminosae, 1
Carnivora, polyphyly, 118
Cave adaptation, evolution, *Pseudosinella violenta*, 602
Cepaea nemoralis, effects of climatic selection on polymorphism, 370
Chaparral, modes of reproduction, speciation, 264
Character conservatism, related to rate of evolution, 516
Character displacement, between surface and cave populations of *Pseudosinella violenta*, 602
Chromatography, pigments, *Aquilegia*, 153
Chromosomes, intraspecific polymorphism, *Drosophila*, Hawaii, 493
number, size, morphology, meiotic behavior, tropical hardwoods, 466
Perognathus goldmani races, 645
polymorphism, evolution, *Drosophila paulistorum*, 663
translocations, *Gayophytum*, 456
Cichlid fishes, evolution, adaptive radiation, speciation, 359
Cladistics, *Oryza perennis*, 429
Climate, effect on wing reduction, crane flies, 346
Climatic adaptation, thermoregulatory physiology, *Neotoma*, 329
Coadaptation, genetic, related to fitness of introgressed populations, *Drosophila*, 519
Coancestry, effect on variance of gene frequencies, 72
Cobben, R. H., Evolutionary Trends in Heteroptera, book review, 357
Coevolution, Bruchidae and Leguminosae, 1
Cohen, Joel E., competition, book review, 725
Collembola, pigmentation, 622
Color-phase, evolution, gibbons, 627
Color variation, *Dacus*, 212
Competition, by Joel E. Cohen, book review, 725
Convergence, carnassial dentition, carnivores, 96
gene frequency, 517
Crane flies, evolution of wing reduction, 346
Cytology, *Drosophila paulistorum*, 663
Gayophytum, 456
tropical hardwoods, India, 466
Dacus, selective differences between genotypes, 212
Demography, *Microtus* populations, 183
Denmark, protein polymorphism and genic heterozygosity, *Mus musculus*, 379
Density, effects on genotype frequency, *Dacus*, 212
Dentition, ancestral carnivores, 118
carnassial, carnivores, 96
early Perissodactyla, 308
levels of integration, *Nesophontes micrus* and *Oryzomys couesi*, 276
Dimorphism, evolution of, gibbons, 627
Dispersal mechanisms, insular biogeography, 171
Dispersal, seeds, Leguminosae, 1
Divergence, rate of, wood frogs, 163
Drosophila, arizonensis, mojavensis, fitness of introgressed and parental populations, 519
intraspecific chromosomal polymorphism, Hawaii, 493
melanogaster, relation of eye pigmentation to mating success, 548
paulistorum, chromosomal polymorphism and evolution, 663
transitional populations, 482
pavani, stability of chromosomal polymorphism, 502
persimilis, factors affecting mating propensity, 225
pseudoobscura, sensory basis of mating success, genotype frequency, 59
Dunbar, M. J., Polar Ecology, book review, 180
Ecotypic variation, intra-, interspecific, Fringillidae, 406
Electrophoresis, protein, *Mus musculus*, 379
transferrin, *Microtus*, 183

INDEX TO VOLUME 23, 1969

Adaptation, carnassial dentition, carnivores, 96
reproductive biology and behavior, *Leptodactylus* species groups, 421
structure and function, vertebrate nose, 131
to cave existence, evolution, *Pseudosinella violenta*, 602
Adaptive morphology, Fringillidae, 406
Adaptive radiation, Bruchidae, 1
cichlid fishes, Africa, 359
Darwin's finches, 252
Gyrinophilus and *Pseudotriton* salamanders, 50
mesonychid mammals, 703
Perissodactyla, 308

Color-phase, evolution, gibbons, 627
Color variation, *Dacus*, 212
Competition, by Joel E. Cohen, book review, 725
Convergence, carnassial dentition, carnivores, 96
gene frequency, 517
Crane flies, evolution of wing reduction, 346
Cytology, *Drosophila paulistorum*, 663
Gayophytum, 456
tropical hardwoods, India, 466
Dacus, selective differences between genotypes, 212
Demography, *Microtus* populations, 183
Denmark, protein polymorphism and genic heterozygosity, *Mus musculus*, 379
Density, effects on genotype frequency, *Dacus*, 212
Dentition, ancestral carnivores, 118
carnassial, carnivores, 96
early Perissodactyla, 308
levels of integration, *Nesophontes micrus* and *Oryzomys couesi*, 276
Dimorphism, evolution of, gibbons, 627
Dispersal mechanisms, insular biogeography, 171
Dispersal, seeds, Leguminosae, 1
Divergence, rate of, wood frogs, 163
Drosophila, arizonensis, mojavensis, fitness of introgressed and parental populations, 519
intraspecific chromosomal polymorphism, Hawaii, 493
melanogaster, relation of eye pigmentation to mating success, 548
paulistorum, chromosomal polymorphism and evolution, 663
transitional populations, 482
pavani, stability of chromosomal polymorphism, 502
persimilis, factors affecting mating propensity, 225
pseudoobscura, sensory basis of mating success, genotype frequency, 59
Dunbar, M. J., Polar Ecology, book review, 180
Ecotypic variation, intra-, interspecific, Fringillidae, 406
Electrophoresis, protein, *Mus musculus*, 379
transferrin, *Microtus*, 183

Endemism, *Drosophila*, Hawaii, 493
species flocks, cichlid fishes, Africa, 359
subspecies, Darwin's finches, 252
Evolution, anemophily, angiosperms, 28
carnivores, 118
chromosomal variation, *Perognathus goldmani*, 645
chromosomes, *Drosophila paulistorum*, 663
color-phase, gibbons, 627
function and development, carnassial dentition, carnivores, 96
function and morphology of feeding mechanism, mesonychid mammals, 703
geographical variation, *Pseudosinella violenta*, 602
intraspecific, *Drosophila*, Hawaii, 493
mating systems, genotypic outcrossing, selective value of male gametophyte, 85
nose, choana, vertebrates, 131
patterns in cichlid fishes, 359
Perissodactyla, 308
population genetics, book review, 723
rate, variation in characters, 516
reproductive biology and behavior, *Leptodactylus* species groups, 421
response to seed predation, Leguminosae, 1
sexual dimorphism, 36
sibling species and host races, *Rhagoletis*, 237
synthetic theory, 513
wing reduction, crane flies, 346
Evolutionary implications, fecundity differences, *Gyrinophilus* and *Pseudotriton* salamanders, 50
genetic variance, *Polistes exclamans*, 391
Evolutionary Morphology of Chordates, by Paul Pirlot, book review, 725
Evolutionary patterns, pigments, *Aquilegia*, 153
Evolutionary rate, reproductive characteristics, *Oryza perennis*, 429
Evolutionary significance, phenotypic constancy, *Linanthus*, 572
Evolutionary status, relict population, wood frogs, 163
Evolutionary theory, related to phenetic and phylogenetic taxonomy, 721
Evolutionary trends, chromosomes, tropical hardwoods, 466
Evolutionary Trends in Heteroptera, by R. H. Cobben, book review, 357
Extinction-origination equilibria, fossil mammals, 688
Eye pigmentation, relation to mating success, *Drosophila melanogaster*, 548
Factor analysis, study of causal hierarchies, 276
Fecundity, evolutionary implications, *Gyrinophilus* and *Pseudotriton* salamanders, 50
Fitness, introgressed and parental populations, *Drosophila*, 519
mating, *Phryganidia californica*, 55
Foraging behavior, bees, effect of plant density on, 560
Fossil mammals, extinction-origination equilibria, 688
Fossil orang-utan, selection intensity for tooth wear, 301
Fossil record, Perissodactyla, 308
Fossil teeth, orang-utan, 301
Frequency of polymorphism, seasonal and long term changes, *Sphaeroma rugicauda* (Crustacea), 589
Fringillidae, ecotypic variation, 406
Gayophytum, chromosome translocations, hybridization, 456
Gene dispersal, bee-mediated, dependence upon plant density, 560
Gene flow, reduction between host races, *Rhagoletis*, 237
Gene frequency, changes in fluctuating populations, *Microtus*, 183
convergence and stability, 517
variance, 72
Gene mutation, eye color, effect on emigration behavior, *Phaenicia sericata*, 65
Genetic constitution, seasonal and long term changes, *Sphaeroma rugicauda* (Crustacea), 589
Genetic efficiency, unisexuals, 36
Genic heterozygosity, *Mus musculus*, 379
Genotype frequency, changes in fluctuating populations, *Microtus*, 183
mating success, density, *Dacus*, 212
sensory basis of mating success, *Drosophila pseudoobscura*, 59
Genotypes, differential outcrossing rates, *Phaseolus lunatus* and *Zea mays*, 85
Geographical distribution, anemophily, 28
color-phase variation, gibbons, 627
Geographical variation, evolution, *Pseudosinella violenta*, 602
Gibbons, color-phase evolution, 627
Gloger's rule, converse in Collembola, 622
Hawaiian Islands, intraspecific chromosomal polymorphism, *Drosophila*, 493
Heritability, body measurements, *Rana pipiens*, 268
Heteroptera, book review, 357
Heterozygosity, genic, *Mus musculus*, 379
Hybrid fertility, sterility, transitional populations, *Drosophila paulistorum*, 482
Hybridization, *Gayophytum*, 456
interspecific, *Aphytis* (Hymenoptera), 525
oats, 676
Hymenoptera, natural history, book review, 723
Immigration rate, insular biogeography, 171
Inbreeding, effect on variance of gene frequencies, 72
India, chromosomal evolution in tropical hardwoods, 466
Insular biogeography, small islands, 171
Insular distribution, Darwin's finches, 252
Inter-island wandering, Darwin's finches, 252

Intersubspecific variation, genotype, *Mus musculus*, 379
Introgression, *Drosophila*, 519
warblers, 355
Islands, biology of California islands, book review, 724
Isolation, ethological, transitional populations of *Drosophila paulistorum*, 482
geographic, wood frogs, 163
mechanisms, warblers, 355
related to endemism, Darwin's finches, 252
reproductive, between interspecific hybrids and parental species, *Aphytis* (Hymenoptera), 525
Rhagoletis, 237
Zea mays, 534
Karyotypes, oats, 676
Perognathus goldmani chromosome races, 645
Leguminosae, interaction with bruchid beetles, 1
Leptodactylus species groups, adaptive ecology, 421
Life history, *Sphaeroma rugicauda* (Crustacea), 589
Linanthus, phenotypic constancy, 572
Longevity, *Phaenicia sericata*, 65
MacArthur-Wilson equilibrium hypothesis, applied to fossil mammal faunas, 688
Mahalanobis distance squared statistics, measurement of selection, 301
Malyshev, S. I., natural history of the Hymenoptera, book review, 723
